"Equipment Suppliers Exhibition and Lease Finance Forum" is for all businesses whose success depends on technological innovations and modern industrial equipment. Forum aims to gather from leading equipment suppliers interested in the region and bring all businesses from the region interested in upgrading, purchasing modern equipment. The forum will facilitate networking businesses from around 16 countries from the region as well as suppliers around the world.

The BIA forum aims to present all major worldwide players of construction, agriculture, healthcare, transportation and HORECA equipment. The forum will propose lease finance opportunities for technological development and delegates will have an opportunity to benefit from the offers of international financial institutions working with foreign suppliers.

The one-day exhibition forum will bring together over 500 chief local and foreign executives from world leading manufacturing brands, businesses from the region interested in acquiring modern equipment and technology, chambers of commerce, international organizations and associations to facilitate introduction of new technologies in our region.

bia forum

BIA has established itself as an innovative and growing company in the business information field. BIA is the sole Georgian provider of business information to the international risk (insurance, credit, operational risks) management companies and investors. BIA partners with the world known companies in the business information field such as D&B (Dun & Bradstreet) (USA), Kompass (France), Interfax (Russia), IGK AG (Latvia). Besides, through its international partners, BIA provides local companies with the reliable information. By providing them with access to the information on 200 million companies within 150 countries, BIA makes the process of finding foreign partners and making decisions for local companies easy.

Thus, the company significantly contributes to the improvement of Georgian business environment and therefore provides solid platform for attracting new business investments. We decided to organize annual forums dedicated to various business sectors to facilitate business development of each field.
